STOP BUYING ELECTRICITY!

- NO EXPENSIVE SOLAR PANELS -

With today's technology you can make your own electricity to power your home. Huge house (3,000 sq. ft. living area) shown in video has more electrical devices than most modern homes: T.V., washer, dryer, 30 cu. ft. refrigerator, sauna room, water well pump, central air conditioning, etc., but we buy no electricity from anyone.

You don't have to be an electrical engineer to install this electrical power unit to provide electricity to power your home 24 hours a day - every day. Our video will clearly show every component involved in this electrical power system, and the enclosed literature will provide sources from which to buy the 5 key components of the system.

If after viewing the video you still don't feel competent to assemble the components, then simply hire a qualified electrician. This is not a new invention, but an innovative design using technology that can be bought off the shelf, which now makes it feasible and extremely reliable. NOT SOME VAGUE THEORY (not a free energy device).

This is something we have lived with for over 3 years, 24 hours a day without a single power failure (which is something none of our neighbors who are hooked up to the power lines of the Electric Power company can say).

- SATISFACTION GUARANTEED -

Send \$32 plus \$3 shipping (check or money order) for 1 hr. video of independent electrical system for the home to: Mr. J. Bourgeois, Suite 235-C, 3701 Division St., Metairie, LA 70002. Shipped First Class in 72 hours.

Woodlot, managing, 79/6:69

Worms and composting, 79/2:49

Zoning and property rights, 79/5:69-70; 71-72; 73-75

Note: Due to recent increases in paper costs, we've been even more careful than usual to avoid waste by printing only as many copies of COUNTRYSIDE as we think we'll need. Sometimes the demand exceeds our expectations... and our supply... and we run out.

This has already happened with three issues from 1995. The January/February, March/April and September/October issues (79/1, 79/2 and 79/5) are gone.

We're sorry to disappoint anyone who wanted these back issues.—*The Countryside Staff*
